I am asked many times how the pass rate for the latest Adjudication compares with previous events. I do not answer this question because such comparisons are irrelevant. Unlike Salons and Exhibitions we assess to a standard, not to a proportion of entries and our Review system ensures that EVERY ENTRANT WHO SHOULD SUCCEED, DOES SUCCEED – no matter how many or how few that might be.

Congratulations to everyone who succeeded in obtaining an Award. It is an achievement of which you can be proud. Wear your badge and show it off whenever you can!

If you fell a little short this time, don't be too discouraged. Look at what images scored well and which did not – those from other people as well as your own. Many have posted their entries with scores on our (as yet) unofficial Facebook page at –

However, we ask our Adjudicators to **VOTE** rather than score

YES which they indicate by pressing **4**

Near Miss which they indicate by pressing **3**

NO which they indicate by pressing **2**

Next Level which they indicate by pressing **5**

When you look at your scores, please remember that they are not really scores. They do not give you a relative value of the image, but are a summation of six votes. The difference between (say) a 24 and an 18, or between 18 and 12, can be very small, when the Adjudicators are actually voting Yes or No.

If you are heading for the next level bear in mind that even a score of 26 means that only 2 of the Adjudicators thought that it would be good enough at the next level.
